

# Touring - breakdown assistance for Ayvens Bike

## Availability

Telephone availability 24/7 on the unique phone number 02/706.41.41. A sticker with the contract number is attached to the bicycle/step. You need to provide this number if you call.

## Where is support provided?

In Belgium, Luxemburg, the Netherlands, France, Germany, Italy and Spain.

## When is support provided?

The guarantee applies to any registered bicycle/step with unexpected technical problems, or which has been legally immobilised at a distance of at least 1 kilometre from the driver's home. The immobilisation is the result of an accident, technical defect, flat tyre, battery problem, vandalism, theft or attempted theft.

Bicycle/step assistance is only provided if the bicycle/step is located on a road accessible to a Touring assistance vehicle.

## What assistance is provided?

a. Dispatch of a Touring road assistance worker to the location. Repair of the bicycle/step. Working time is included.

b. If the Touring road assistance worker cannot repair the bicycle/step at the location, the driver is entitled to one free transport of the registered bicycle/step. The bicycle/step and the driver are given a lift home, to the work site or to the place of stay. The driver chooses the location.

During the ride, the driver can, in agreement with the road assistance worker, be given a lift to where the bicycle/step is transported.

Touring is not responsible for the luggage during transport.

c. If the bicycle/step is stolen, we organise and pay for the transport of the insured person to the place of departure or arrival with a maximum of € 80. This guarantee is only provided if the insured person is able to prove that all precautions were taken to minimise any risk of theft of the bicycle/step.

E.g. producing the key of the bicycle lock.

## Definitive repair

The definitive repair of the bicycle/step so that it can be used again, within legal and regulatory provisions, without risk of further damage.

## Provisional repair

All repairs whereby the bicycle/step is repaired such that the driver is able to cycle, immediately or not, to a repair shop.
