The person who is responsible for the vehicle shall be deemed equivalent to the Insured in connection with this clause 9.

#### 9.2 Limitation on annual distance travelled

The premium for this insurance policy is determined on the basis of the distance travelled as specified in the insurance certificate. In the event of an accident, the kilometrage reading at the time of the accident will be compared with the kilometre limitations stipulated on the insurance certificate and the time of these readings, irrespective of the period of validity of the insurance agreement. Any exceedance shall be deemed to have taken place in its entirety during the current insurance period, unless the Insured is able to demonstrate otherwise.

The limitation rule shall not apply in the event of a claim concerning fire, theft, glass and rescue damage.

#### 9.3 Change in use or other changes of relevance to setting of the premium

If, in the event of a claim, it becomes apparent that the premium was set too low as a result of inaccurate or incomplete information, or because the Insured omitted to declare changes which would have been of importance in the calculation of the correct premium, the Insurer's liability in respect of vehicle damage shall be limited to what corresponds to the ratio between the premium that was actually paid and the premium that should have been paid; see Section 4-7 of the Insurance Contracts Act. For example, any compensation would be reduced by 20% if the premium had been set 20% lower than the correct level.

Examples of such circumstances are:

- Change in use, including hire car, taxi, driving school vehicle, etc.
- Change in the vehicle's specifications and/or modifications to the vehicle
- Change in other preconditions agreed between the parties as a basis for a reduction in premium, as specified on the insurance certificate

In the event of the following changes in risk, the Insurer shall not accept any liability; see Section 4-6 of the Insurance Contracts Act:

- Damage caused as a result of driving in a restricted area (track or highway) in connection with participation in or training for competitive racing or speed trials or other driving in such places, even if speed is not measured during the driving. The same shall apply to driving on sections of road which form part, or have formed part, of tracks for speed competitions when a fee is payable for access to the track or section of road. Notwithstanding the foregoing, the insurance shall apply to such driving when it forms part of mandatory training for a driving licence or for a skid training course organised in Norway by KNA, NAF, MA or an authorised driving school.
- Damage to the motor vehicle as a result of use of the vehicle for snow clearance, in connection with the use of own winch or during off-road driving (does not apply to the use of snow scooters or 3- and 4-wheel all-terrain motorbikes).
- Damage to the motor vehicle as a result of driving on ice-covered water/lake/river away from roads/routes marked by public authorities for such driving.

If a discount has been given and it has been agreed that the motor vehicle will not be used by any drivers under 25 years of age, and the driver is under this age at the time of the accident, the excess stated on the insurance certificate shall be increased by NOK 12,000.

### ***Adjustments to premiums, rates and conditions***

#### Clause 10

##### 10.1 Adjustment per Due date

The insurer is entitled to adjust as per the Due date the premiums and conditions as in force with respect to the insurance policy. The Insurer should inform the Insured of the adjustments in writing in connection to the premium notice.

##### 10.2 Notice

Should the Insured not agree with the adjustments as set out in clause 10.1, the Insured should give notice to the insurer within 30 days. In that case the policy will terminate as per the Due date.

### ***Lapse of rights***

#### Section 11

In the event of damage, the Insured must notify the Insurer without undue delay. The right to compensation shall lapse if the claim is not reported within one -1- year after the Insured has become aware of the circumstances that justify the claim, cf. FAL § 8-5 (1) and § 18-5 (1).

If the Insurer rejects a claim made under the insurance in accordance with FAL § 8-5 (2) or § 18-5 (2), the claim shall lapse, as shall the right to coverage, if the Insured does not file a lawsuit or request a board hearing pursuant to FAL § 20-1, or §§ 2 or 3 of the Natural Disaster Compensation Act, within 6 months of receiving the rejection.

### **Identification**

#### Section 12

Actions and omissions by the person who, with the consent of the Insured, is responsible for the motor vehicle, have the same effect on the Insured's rights as if the act or omission had been carried out by the Insured himself, cf. FAL § 4-11 letter a.

### ***Position of the Co-insured – recourse against the Insured***

#### **Clause 13**

The insurance policy provides cover for the Insured as the user of one or more motor vehicles owned by Ayvens Norge AS as Co-Insured under the insurance. If the Insurer has paid compensation to the Co-Insured in cases that are excluded or limited from coverage according to the general conditions, NO-001, sections 8, 9, 10, 11, or 13, the Insurer is therefore entitled to claim recourse against the Insured to the extent that the exclusion or limitation applies.

The Insurer is also entitled to recourse against the Insured in accordance with the Motor Liability Act (1961) section 12.

Should the Insurer become liable to pay damages under these terms and conditions because of an event, occurring during the time that the insured object or any part thereof was parked for a fee, was given in repair, maintenance or any other form of handling, the Insurer reserves the right to claim recourse from the liable person and from the party who employed him. These persons are explicitly not regarded as insured person(s).

Should the Insured die as a consequence of the accident between one and three years of the date of the accident and the payment for permanent disability has not yet been determined, the right to this payment will lapse.

Should an accident be the direct cause of various injuries to the same person which result in permanent disability, the payment will be determined in accordance with the provisions determined by the Norwegian Labour and Welfare and Organisation.
